Describing Copyright in RDF Creative Commons Rights Expression Language The Creative Commons Rights Expression Language (CC REL) lets you describe copyright licenses in RDF. For more information on describing licenses in RDF and attaching those descriptions to digital works, see CC REL in the Creative Commons wiki. Classes Work a potentially copyrightable work License a set of requests/permissions to users of a Work, e.g. a copyright license, the public domain, information for distributors Jurisdiction the legal jurisdiction of a license Permission an action that may or may not be allowed or desired Requirement an action that may or may not be requested of you Prohibition something you may be asked not to do Reproduction making multiple copies Distribution distribution, public display, and publicly performance Derivative Works distribution of derivative works Sharing permits commercial derivatives, but only non-commercial distribution Notice copyright and license notices be kept intact Attribution credit be given to copyright holder and/or author Source Code source code (the preferred form for making modifications) must be provided when exercising some rights granted by the license. Copyleft derivative and combined works must be licensed under specified terms, similar to those on the original work Lesser Copyleft derivative works must be licensed under specified terms, with at least the same conditions as the original work; combinations with the work may be licensed under different terms Commercial Use exercising rights for commercial purposes High Income Nation Use use in a non-developing country A License permits a Permission. A License requires a Requirement. A License prohibits a Prohibition. A License may have a jurisdiction, as defined by Jurisdictions. The URL of the legal text of a License. A License may be deprecated; provides the date deprecated on. A related resource which describes additional permissions or alternative licenses for a Work which may be available. The name the creator of a Work would like used when attributing re-use. The URL the creator of a Work would like used when attributing re-use. A related resource which defines non-binding use guidelines for the work. RDF users might be interested in our machine-readable RDF Schema. A copy is also embedded in this document. Except where otherwise noted, content on this site is licensed under a Creative Commons Attribution 4.0 International license Experience the simplicity of taking your analog design from idea to reality with our Analog Development Tool Ecosystem. Designed for use by both analog and digital engineers, this comprehensive suite of resources reduces complexity, cost and time to market in your mixed-signal, interface and power designs. loading reading writing saving searching There was an error loading the page; please try to refresh the page.
